Who We Are

For over a decade with pride and integrity, Direct Renovation Products has been providing contractors and homeowners all over Florida, the US and Canada with "dream kitchens" that add value, functionality and beauty to their homes.

*We offer a variety of all-wood cabinetry from the world's leading manufacturers including our own **DRP** brand. Now we are proud to introduce our own "DRP" brand of outdoor cabinetry; available in several styles and colors!*

We can ship ready to assemble (RTA) or we can assemble all of your cabinetry for you and deliver to them to your location within your schedule.

The Decision

We know the decision to spend thousands of dollars on a new indoor or outdoor kitchen isn't easy and the number of choices can be overwhelming. However our experienced designers will walk you through the entire process. They'll help you get the finest cabinets with the most features for your investment. With your ideas, our suggestions and advanced 3-D design software tools, our experts will make your dream kitchen, bath or both become a reality at absolutely no cost to you!

Not sure about a particular style, color or both? Ask our designers about our *sample door program which gives you an opportunity to bring home a selection or two and decide which style and color works best for you. (*Outdoor cabinetry excluded).

Our Order and Customer Service Process

After key elements of your design are determined including the manufacturer, cabinet type, style, color, and any accessories; our customer service department will confirm and process your order. We'll then work to determine the best possible ship date that will coincide with your delivery requirements.

We pride ourselves on providing optimum customer service from the initial order through delivery. We'll update you on the progress of your order all along the way. Even more importantly, if there are any issues after the delivery we will assist in resolving them to your satisfaction.

Quality – Style - Value

RTA or Assembled?

Whether you're remodeling an indoor or outdoor kitchen (or bath) for personal enjoyment or you are a contractor in need of a bulk order, ordering RTA or ready to assemble cabinets can make a great deal of sense. DRP can provide a less expensive alternative to fully assembled cabinets. Our RTA cabinets offer the craftsmanship you seek at factory direct pricing with great customer service included!

However, if you do not have the time or are not the DIY type, DRP can provide pre-assembled cabinets. We can eliminate the unknown and perhaps some frustration by assembling your cabinets for you at our own facilities!

Our team of trained professionals will assemble each and every cabinet with care. For our all-wood cabinetry, we use premium glues, screws, forged staples and a clamp process to ensure your cabinets will remain sturdy and reliable for many years to come. Once inspected and protected for shipping, we'll deliver your indoor-outdoor "dream kitchen" or "bath" to your location in a timely manner, ready to install.

Our skills go well beyond just assembly. DRP can customize or modify most any cabinet. Both our HDPE and all-wood cabinetry selections can be modified to fit custom requirements. *Please also talk to us about our countertop selections for your indoor and outdoor kitchens!*
